About the Seminar

Tourism has been an integral part of social, religious and cultural History. Travelling has been one of the most effective ways to learn new things, experience new culture and see the new opportunities of employment. At the same time, tourism is a phenomena which involves the movement of people from one place to another. This is the real upgradation of knowledge and experience.

In the present world tourism has taken different dimensions from rural tourism to adventure tourism. A lot of opportunities get opened like involving people in hospitality, adventure, transport and management sectors.

Heritage tourism is a reflection of a country's rich heritage. So the tourism involves safe guarding a heritage sight and maintaining them. That is why it is very important that we preserve and safeguard the Heritage of the places we live in.

This one day seminar will focus on various aspects of Tourism which will be enriching for the students as well as faculty.
